

## Odem Edroy Independent School District

### Medication Forms – oeisd.org

If a student has a health concern and requires medication during the school day, a Medication Administration Request form must be completed by the prescribing physician. Students requiring procedures/treatments during the day will be required to submit the Physician/Parent Request for Administration of Procedures/Treatment form. These forms must be completed annually and whenever and whenever there is a change of medication, dose, procedure, and or treatment. The school nurse will contact the physician as necessary for information regarding student health concerns, medication, and procedures and treatments if necessary. Health concerns and related information will then be shared on an as needed basis with appropriate school staff to provide care for your student.

### Medication Administration Request

### Physician/Parent Request for Administration of Procedures/Treatments

### Medication Addendum to Travel Consent/Health Form

Please contact your student's school nurse for any information or assistance concerning your child's health or development.
