

The Compatibility feature in Internet Explorer. Some Pages Like it Others don't. Here's how to correct the issue with some pages. For example – you open our webpage one day and find that a window pops up and informs you that it has to close because the webpage did not open correctly.

To remedy this issue for our website, your browser (internet explorer) has to be told to not use the compatibly view for our website. So to do this please follow the instructions.

1. First your going to want to open up your menu bar in internet explorer... (You may have to click thru all the little pop-ups until your web page goes white. Go ahead and click'em all). Tto open the menu bar you will need to right click in the top area of internet explorer till you see the following pop-up. Make sure there is a check mark next to MENU BAR

- 2. Then you will want to click on tools, and then on Compatibility View Settings

3. **The next pop up should look like this.** Please make sure that www or <u>www.oeisd.org</u> is not in the big middle box. If they are then you need to click them and hit the remove button. This will fix your Internet Explorer Browser.
